## **SuperSpeed USB 3.0 ExpressCard** ENPUH-302

Encore Electronics' SuperSpeed USB 3.0 ExpressCard adds two USB 3.0 ports to your notebook computer. The data transfer rate is at an amazing speed up to 5 Gbps — 10 times faster than USB 2.0 (480 Mbps). Now, you can connect to the latest USB devices, such as external hard drives, Blu-ray burners, external video adapters and camcorders.

The SuperSpeed USB 3.0 ExpressCard is ideal for professionals who need high-performance storage devices and people who enjoy watching HD videos. ENPUH-320 has advanced power management feature. That will extend the notebook running time. ENPUH-320 also is backward compatible with USB 2.0 and USB 1.1.

## Features

- Up to 10X Faster than USB 2.0
- Less File Transfer Time
- Backward Compatibility
- More Efficient Power Usage
- Better Device Stability with Increased Power Output
